

The background of the slide is a blurred, futuristic laboratory. It features several glowing blue molecular models (DNA helices and complex structures) displayed on pedestals. In the background, there are digital screens and people in white lab coats, suggesting a high-tech medical research environment.

With AI We Innovate Medicine (WAI)

Transforming Saudi Arabia's Healthcare Innovation Ecosystem

A comprehensive three-tier structure driving medical innovation from training to commercialization, aligned with Vision 2030

With AI We Innovate Medicine (WAll) – Non-Profit

Role:

National impact, training, research culture, and innovation awareness.

What it does:

- Runs public training programs, health innovation workshops.
- Leads youth and university engagement.
- Signs MoUs for innovation labs, hackathons, and scientific clubs.
- Ensures Vision 2030 alignment and societal impact.

Narrative:

WAll empowers society and develops the talent that will shape the future of medicine.

WAll Accelerator – With AI We Innovate Medicine Accelerator

Role:

Transforms trained talent & research into validated startups.

What it does:

- Operates 10 Innovation Offices inside universities and medical hubs.
- Provides mentorship, product strategy, regulatory pathway, and investor readiness.
- Prepares startups to receive investment from WAll Ventures Holding and external investors.
- Acts as the pipeline and qualification mechanism.

Narrative:

The Accelerator converts Saudi scientific talent into real companies ready for global markets.

WAll Ventures Holding Company (For-Profit)

Role:

The commercial engine and investment fund manager under the non-profit.

What it does:

- Raises USD 10 million initial fund.
- Takes equity and invests in startups inside and outside the accelerator.
- Commercializes technologies and products originated from the accelerator.
- Functions as holding company + investment arm + commercialization partner.
- Ultimately prepares portfolio companies for Series A, JV, and IPO.

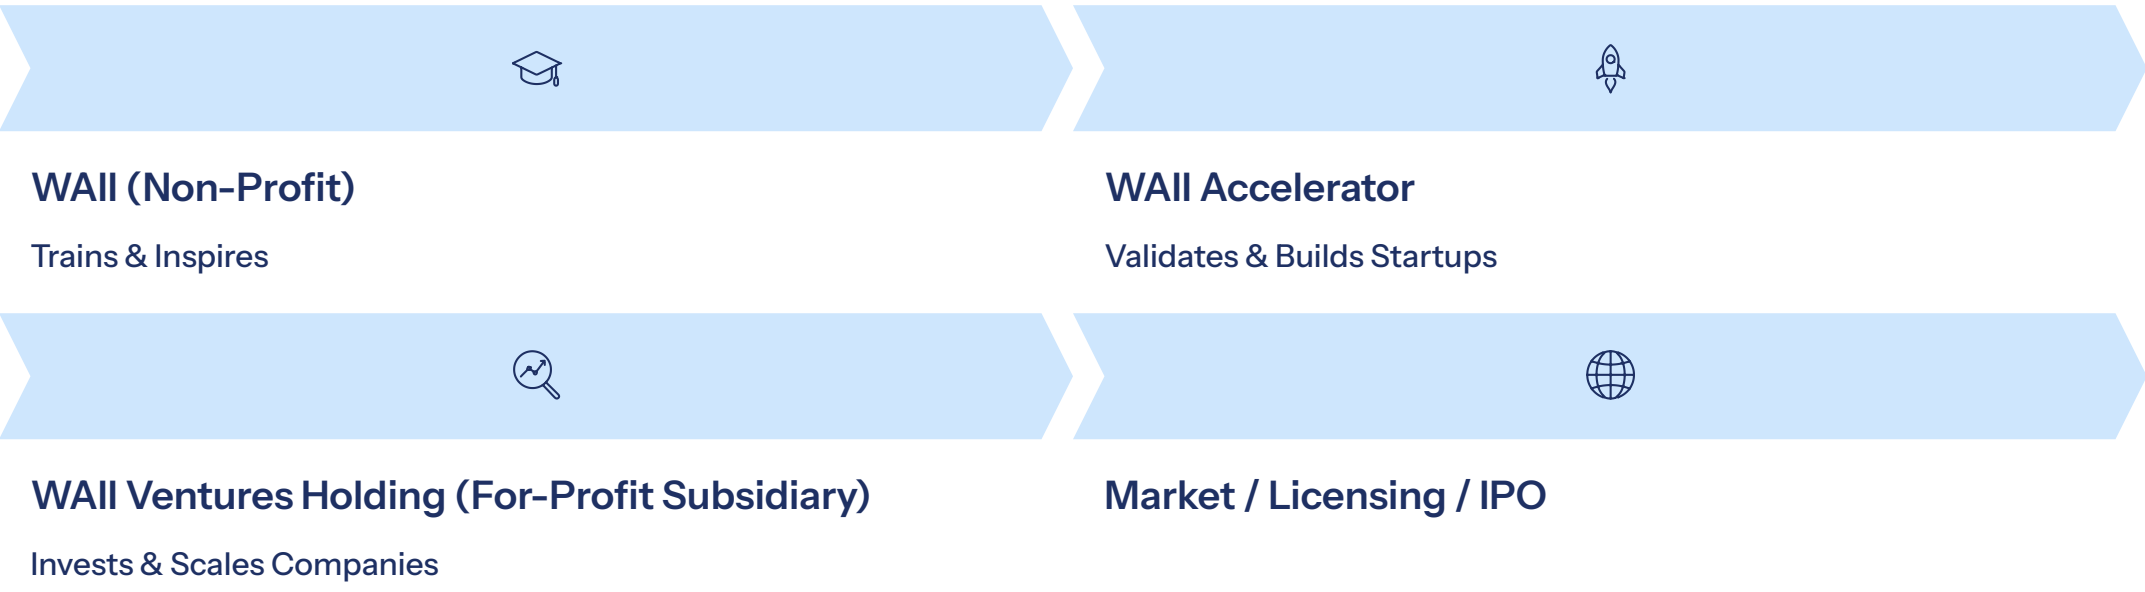

Narrative:

WAll Ventures Holding transforms innovations into scalable companies and sustainable economic returns.

Pipeline of Strategic Portfolio (Ready to Sign)

Startup / Program	Origin	Stage	Accelerator Role	Expected WAll Ventures Investment
SkinAI	Medical AI Platform	Ready for deployment	Regulatory + GTM scaling	Seed / Series A
BHOC	Biological Hemoglobin Oxygen Carrier	Manufacturing + clinical partnerships	Regulatory + GMP + licensing	Seed / JV
BioQentix	AI Drug Discovery Engine	Platform validation + partnerships	IP lab + publication pipeline	Seed / revenue share
DigiPharm	Digital contracting platform for pharma	Product-market scaling	Hospitals onboarding + compliance	Seed / scale
